

TIMBER OPTIONS

All timber products are available in all of our solid timbers and finishes unless otherwise indicated in our media.

The timber we use is from sustainable farms. The trees on the farms are pruned regularly to allow for consistent grain patterns and fewer knots, ensuring exceptionally strong planks of the highest quality.

TIMBER OPTIONS

Our oil finishes, which are applied evenly followed by wax, provide a renewable surface for enduring beauty. Painted timber is wire brushed before the application of the paint to create a textured surface. Our stained timber is first stained then sealed with a clear matte lacquer to maintain the colour whilst preserving the tactility of the surface.
