

ASSEMBLY INSTRUCTIONS

762 STRUCTURE TABLE BY NERI&HU

PARTS

- 1x Tabletop
- 2x Leg frames
- 1x Cross beam
- 1x Vertical support beam

Hardware:

- (2x) Universal connector
- (2x) M8x40 Metal dowel

- (10x) M8x70 bolts

- (2x) M8x90 bolts

YOU WILL NEED

- 5mm Allen Key
- The help of a friend

NOTES

NOTE 1: Be certain that all assembly is carried out on a flat and stable surface. This will ensure a good final result. Reverse the steps to disassemble the piece.

NOTE 2: Your furniture arrives packed in numerous layers that protect it during transport. It is important that you remove the packaging carefully to avoid damaging your furniture. Refer to our information sheet "Unpacking Your Furniture" for further details.

NOTE 3: Great care is required when assembling our products . Use blankets to soften the assembly surface - hard surfaces such as wood or stone flooring may damage the furniture if in direct contact.

NOTE 4: We advise that assembly and disassembly of De La Espada furniture is undertaken by a minimum of 2 people.

NOTE 5: When screwing in bolts, tighten well, but be sure NOT TO OVERTIGHTEN. This can cause the thread to strip thus resulting in a poor connection.

NOTE 6: While you work, be sure all connections are flush with no gaps.

NOTE 7: After assembly, ensure that the table is resting on a level surface.

ASSEMBLY INSTRUCTIONS CONTINUED
762 STRUCTURE TABLE

INSTRUCTIONS

1) ASSEMBLE LEG STRUCTURE

a) Attach the vertical support beam to the cross beam by aligning the pre-drilled holes. Insert an M8x90 bolt into each of the two holes and tighten with an Allen Key.

b) Locate the number markings on the leg frames and the cross beam. This will indicate the correct placement within the assembly.

c) While your partner supports one end of the beam construction, insert a metal dowel into one end of the cross beam, and insert a Universal Connector into the underside of the corresponding leg frame. Guide the metal dowel into the Universal Connector. Tighten with an Allen Key.

d) Repeat step C to connect the remaining leg frame to the cross beam.

2) ATTACH TABLETOP

a) With the help of a friend, carefully turn the assembled leg structure over into an upright position, taking care not to place any weight/force on the structure while turning.

b) Place the tabletop onto the leg frame, matching number markings, and carefully align the pre-drilled holes.

ASSEMBLY INSTRUCTIONS CONTINUED

762 STRUCTURE TABLE

c) Insert five M8x70 bolts through each leg frame and into the tabletop. Tighten with an Allen Key.

d) Assembly is now complete and the table is ready for use.
