## MATERIAL OPTIONS

## 766MB/MC FRAME CORNER UNIT SOFA

The Frame series explores the architectural concept of tectonics, celebrating the art of construction. It was developed with the objective to create a single frame that could serve all the needs of the product such as a base, legs, decorative feature, and even practical support for accessories including trays. Made from solid wood, the frame's appearance reveals clearly how it is constructed through the visible joinery details.

## SIZE
