

**MATERIAL OPTIONS****358LS DIFFERENT TRAINS CABINET**

Long planks of solid hardwood create a cabinet with an open form, while the sliding doors articulating the facade partially conceal the cabinet contents, engaging play between positive and negative space. Available in two widths and one, two or three tiers, various configurations are possible. The wide/single tier version particularly lends itself to use as an A/V unit. Designed by Matthew Hilton for his eponymous brand, and manufactured by De La Espada craftsmen.

**SPECIFICATION**

Available in American black walnut, American white oak, or European Ash in a range of finishes. Sliding compact laminate doors articulate the facade. Matte black painted steel legs. Click on 'Materials' in the left hand menu for further information. PLEASE NOTE: the 240cm / 94 1/2" wide cabinet comes with six sliding doors per shelf, consisting of two of each door size, placed along one side of the cabinet only. Further sliding doors may be purchased separately. The doors are available in black or as a set of three shades of grey. They do not have an exact colour reference, however as a guideline, the closest RAL codes are: Black doors, RAL 9011; Grey doors: Light Grey RAL 7035, Medium Grey RAL 7042 and Dark Grey RAL 7012. We do not guarantee an exact match with these RAL codes. Assembly: Different Trains
