

ASSEMBLY INSTRUCTIONS

PLATFORM BED BY NERI&HU

PARTS

HARDWARE

(8x) Universal connector

(8x) M8x40 Metal dowel

(12x) M8x45 Countersunk screws

(4x) M8x60 Countersunk screws

(1x) M8x40 Countersunk screw

(2x) M8x70 T-Nut Hat Screw

(49x) M6x45 Countersunk screws

YOU WILL NEED

- 4mm and 5mm Allen Key
- The help of a friend

NOTES

NOTE 1: Be certain that all assembly is carried out on a flat and stable surface. This will ensure a good final result. Reverse the steps to disassemble the piece.

NOTE 2: Your furniture arrives packed in numerous layers that protect it during transport. It is important that you remove the packaging carefully to avoid damaging your furniture. Refer to our information sheet "Unpacking Your Furniture" for further details.

NOTE 3: Great care is required when assembling our products . Use blankets to soften the assembly surface - hard surfaces such as wood or stone flooring may damage the furniture if in direct contact.

NOTE 4: We advise that assembly and disassembly of De La Espada furniture is undertaken by a minimum of 2 people.

PLATFORM BED

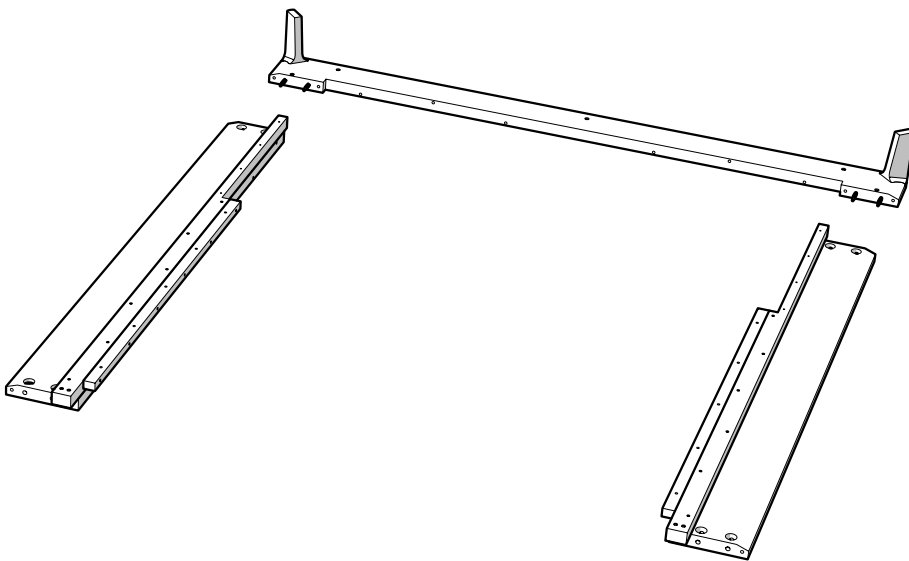

NOTE 5: When screwing in bolts, tighten well, but be sure NOT TO OVERTIGHTEN. This can cause the thread to strip thus resulting in a poor connection.

NOTE 6: All mating parts are numbered so they correspond to the appropriate part around the frame of the bed. you will ensure the best possible fit if all parts are mated with the corresponding numbered parts. While you work, be sure all connections are flush with no gaps.

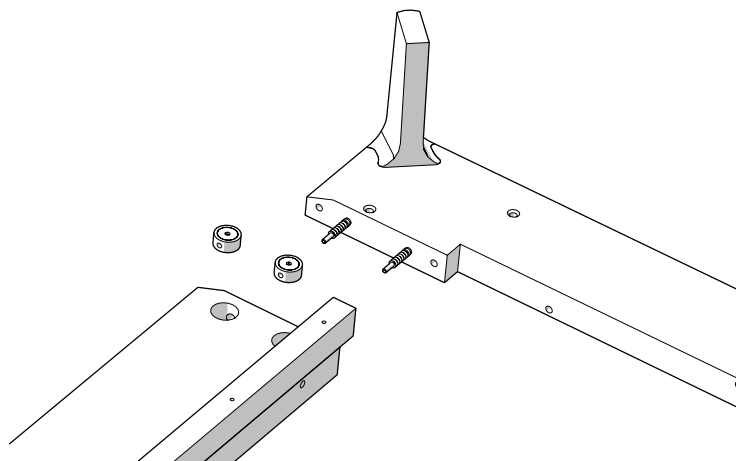

INSTRUCTIONS

1. ATTACH SIDEBEAMS TO HEADBOARD BEAM

a) Unpack components and lay them face down on a softened surface on the floor, so they are in the correct orientation. Check for number markings.

b) Insert metal dowels into the pre-drilled holes in the headboard beam, and insert Universal Connectors into the pre-drilled holes in the sidebeams. Feed the metal dowels through the Universal Connectors and tighten with a 6mm Allen Key.

2. TURN THE FRAME INTO ITS NATURAL UPRIGHT POSITION

a) Turn the frame over into its natural position with the help of a friend. Be certain not to rest the frame on any individual leg whilst turning.

3. ATTACH THE HEADBOARD WITH ARMS TO THE FRAME

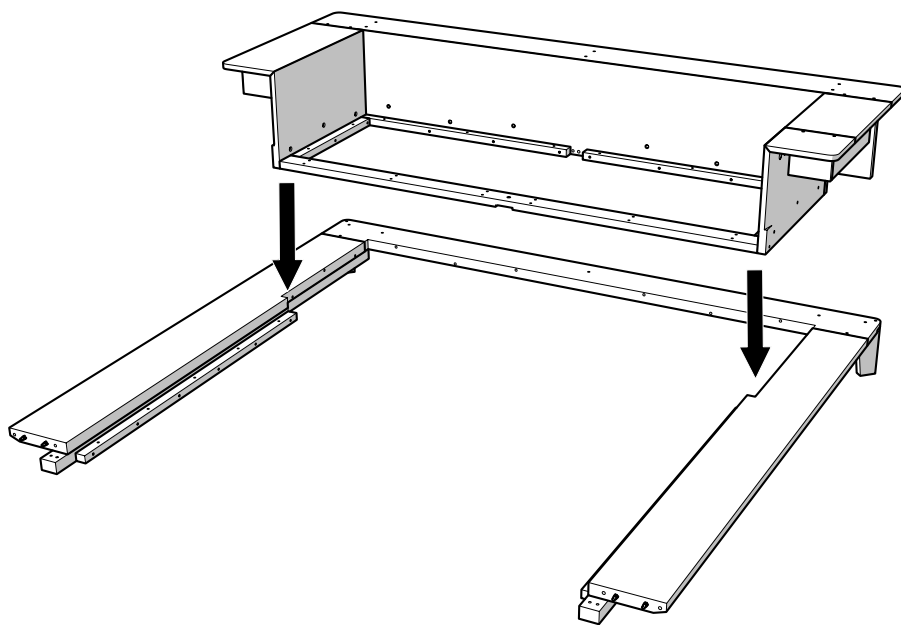

a) Locate the cutouts in the sidebeams where the headboard with arms will be placed.

4. ATTACH CENTRAL BEAM

a) Place the central beam on the underside of the frame, fitting it into the cutout in the base of the headboard with arms. Insert an M8x40 countersunk screw into the base of the headboard with arms and into the central beam as below. Tighten with an Allen Key.

5. ATTACH FOOTBOARD

a) Insert metal dowels into the pre-drilled holes in the footboard.

b) Insert Universal Connectors into the pre-drilled holes on the underside of the sidebeams. Feed the metal dowels through the Universal Connectors while feeding the dowels in the central beam through the corresponding holes in the footboard. Tighten the Universal Connectors with a 6mm Allen Key.

c) Insert four M8x60 countersunk screws into the underside of the bed frame (two on each end) as pictured. Tighten with an Allen Key.

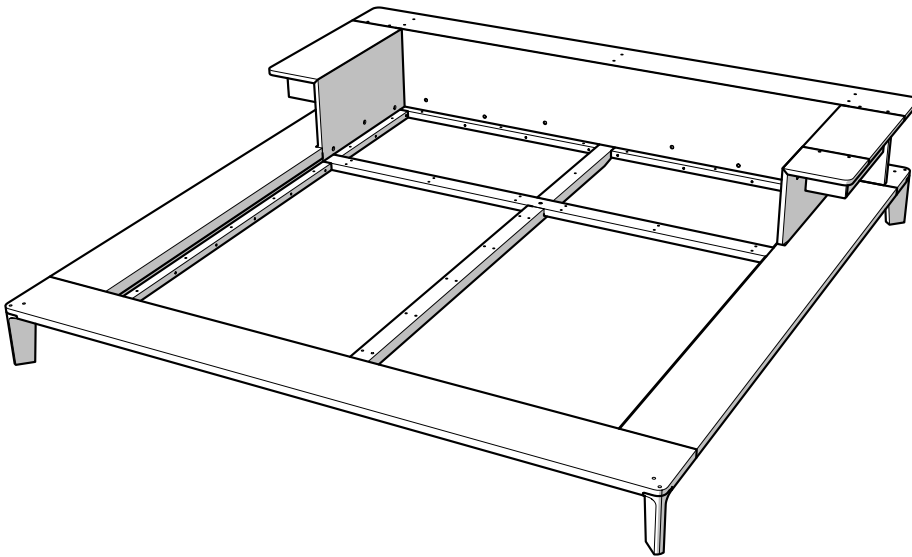

d) Make sure the central beam is aligned with the holes in the footboard and headboard beam. Secure in place by inserting an M8x70 T-Nut Hat Screw into each end, and tightening with an Allen Key.
