

LAMP SHADE ATTACHMENT INSTRUCTIONS

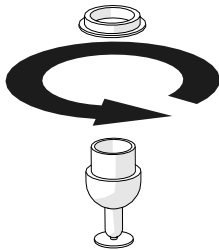

ALL LAMPS WITH LAMP SHADES

All of our lighting that includes a fabric lampshade with wire armature is delivered with a locking ring screwed onto the threaded bulb housing. This is used to keep the lampshade firmly in place. Follow the below instructions to attach the lampshade. Reverse the instructions to remove the lampshade.

INSTRUCTIONS

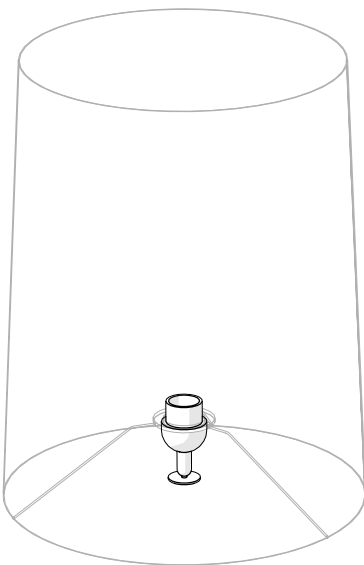

1) REMOVE THE LOCKING RING

Locate the locking ring on the bulb housing, and unscrew to remove it.

2) PLACE THE LAMP SHADE INTO POSITION

Once the locking ring is removed, place the lampshade onto the bulb housing.

3) REATTACH THE LOCKING RING

Once the lampshade is in position, reattach the locking ring by screwing it onto the bulb housing and hand tighten until it clamps down firmly onto the lampshade armature.

4) INSERT BULB

Now that the lampshade is held firmly in place by the locking ring, screw the light bulb into the bulb housing. Installation is now complete.
